

INTJ angry Face Redd

Lols my murder face is my thinking face.

Had a coworker once ask for my help on something and I said sure. She began to explain the issue and as I was thinking of a solution I gave her the face.

She then began to apologize and asked why I wanted to look like I wanted to murder her.

I laughed and said it's just how thinking face is. Then I sent her the link to 16 personalities. I think she was ENFP or something like that @Abernachy
